

The first smart thermostat to offer full two-way communications with Daikin HVAC systems

The Daikin *One+* smart thermostat is an intelligent home air controller from the world's leading heating, ventilating, and air conditioning (HVAC) manufacturer. It is a cloud-connected hub of sophistication, integrated for controlling temperature, humidity, and air quality.

- 1 **The high-resolution color touch screen display** is protected by the same toughened glass used in smart phones.

A number of screen savers are available, including this analog clock.

- 2 **The anodized aluminum bezel and dial** are precision manufactured. The surfaces have a fine bead blast with a warm hued anodized finish. The dial rotation is extraordinarily smooth because it rests on a bearing assembly typically found in precision instruments. A switch behind the dial enables users to return to the home screen from any menu with a single tap.

Turning the dial changes the temperature set-point.

- 3 **An integrated WiFi radio** connects to the internet (via a home router) to the cloud and on to the homeowner mobile application. The Daikin cloud will also seamlessly integrate with open smart home architectures, including *Amazon Alexa* and *Google Assistant*, enabling consumers to effortlessly use features such as voice control.

- 4 **A thin LED light strip** sits flush within the bottom surface and runs from edge to edge, delicately illuminating the wall beneath. Emitting a soft emotive glow, the light strip indicates the current system mode: red-orange for heating, blue for cooling.

- 5 **Built-in bubble level** aids professional installation.

The **home screen** displays the current temperature, the current system mode, and icons leading to each of the top level screens.

The **adjust screen** displays the current temperature on the left and set-points on the right. Change the set-points by dragging them or by turning the dial.

The **schedule screen** displays upcoming set-point changes and scheduled times. It also offers access to edit mode, where you can adjust the schedule.

The **away screen** displays energy saving set-points. Energy saving can be invoked manually or automatically when the mobile app recognizes everyone is away.

The One for Connectivity

The Daikin *One+* smart thermostat is a cloud-connected hub of sophistication, designed for controlling temperature, humidity, and air quality. With a variety of connectivity options, there's a comfort solution for every project and customer.

COMPATIBLE EQUIPMENT

Air Conditioners	DX20VC, DX18TC, DX16TC, Daikin Fit (DX17VSS)
Heat Pumps	DZ20VC, DZ18VC, DZ18TC, DZ16TC
Gas Furnaces	DM97MC, DC97MC, DM96VC, DC96VC, DM80VC, DC80VC
Air Handlers	DVPEC, DVPTC, MBVC

Daikin *One+* Specifications

Technical Specifications

Analog dial
Capacitive touch screen
Backlit, 3.5 inch MVA TFT LCD display
Bi-directional communications protocol for controlling HVAC system
Bubble level (to aid installation)
640 × 480 pixels × 24 bit RGB (full color screen)
Light pipe indicates heating or cooling
WiFi

Dimensions

Length: 6-3/4 inches
Height: 3-3/8 inches
Depth: 1-3/16 inches
Weight: 10.5 ounces

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
